

ARCHINOVA'18

Event details:

This is an event conducted to initiate and encourage the process of innovative thinking in the field of structural designing and search for new ideas to transform our surroundings.

In this event, the competing team has to prepare a model and give a presentation on it clearly stating its aim, working procedures and advantages.

Now coming to why one should take interest in Archinova :

1. This event allows the participants from various disciplines to showcase their structural designing skills and execute their knowledge of science in designing models.
2. A great opportunity to hone your communication skills through presentations.
3. If your model is innovative and enough convincing, it will be executed in reality in near future keeping aside the existing prizes for the position holders!!!! Who doesn't want such fame????

So, register as fast as possible, join Archinova this technoesis to see your imagination taking a real shape.

Some basic ideas for making models:

Participants can make models on:

- It can be some unique idea for your college itself.
- Already established mega structures like Burj Khalifa, Panama Canal etc.
- Green Buildings.
- Structures using green concrete.
